

AN INDEPENDENT STUDY OF HAWKS & OTHER RAPTORS

Step One

Read the article about hawks and explore the Raptor Center Website to view images of hawks and other raptors. Review the information and select three ideas or areas that seemed particularly interesting or important to you. These are ideas that made you curious enough to want to learn more. Summarize three of these areas/ideas in the spaces below. Share them with a partner or small group.

2.

1.

3.

Step Two

Determine how you might express your ideas and interests through a medium that you like to work in – one that is important to you. For example:

- Choreograph a movement piece inspired by what you've learned (perhaps moving to Botti's music).
- Draw or paint an art work in a medium you select. Or create a sculpture.
- Write a poem or fictional short story.
- Compose a short musical work.
- Write and perform a monologue about raptors.
- Write an original non-fiction essay about hawks.

Write a short summary of what you will make/write/create to express your ideas.

Step Three: GET STARTED!!
